EXPERIENCE

Process Specialist, Customer Operations Satellite communications company March 2025 – present
Enterprise Associate through [CONFIRM: promotion month/year]; Process Specialist since.

- First contact for executive escalations across enterprise accounts; identify root causes and track systemic fixes to completion.
- Restructured operational runbooks into scalable playbooks across support queues, reducing mis-escalations by 30 percent.
- Built a forecasting model from operational data to project ticket volume and staffing needs across account types and issue categories.
- Recovered six-figure credits through forensic variance audits; implemented recurrence controls across logistics workflows.
- Lead postmortem bridges during service-impacting events, coordinating engineering, network operations, logistics, and account management through restoration and executive communications.

SMB Account Manager (Business Expert) Apple Inc., Houston, TX October 2022 – April 2023

- Managed 200+ SMB accounts across a \$10M+ portfolio; ranked top three in market and top seven in region.
- Drove a 15 percent performance improvement through CRM/SAP data-hygiene initiatives across 19 retail locations.

Co-Founder, Operations Manager Pennies to Dollars, LLC, Denver, CO July 2020 – November 2022

- Scaled a funded fintech startup from zero to 5,000+ users; led a 15-person team using Agile while maintaining 99.9 percent uptime.

Technical Support Expert (Tier 1–2) Apple Inc., Houston, TX September 2017 – April 2019

- 96 percent customer competency rating, highest in market for 2018; handled the majority of the market's iOS technical support cases in FY2018.
